THIRTY-THIRD ANNUAL PRICE LIST

THE J. C. ROBINSON SEED CO.

GROWERS

WATERLOO, NEBR.

1920 CONTRACT PRICE LIST OF VINE
SEEDS AND SEED CORN

ANNOUNCEMENT

We herewith hand you our thirty-third annual price list. As we are getting away from war conditions, we resume our usual way of pricing, believing it to be more satisfactory to the trade. The trend of prices is a little downward but farmers are still in a strong position and rather indifferent to seed acreage.

An acreage will be planted of each variety to produce under ordinary conditions the various amounts required to fill all contract orders, and in no instance will any carry-over stock be used on contract orders, unless it may be mutually agreeable to our customers and ourselves. In case of shortages a sufficient reservation will be made for planting stock, after which all orders will be filled by an equal pro rata division of the entire remaining crop delivered to us by our various growers, all orders being treated alike.

Orders will be accepted for the growing of special stocks or new varieties at reasonable prices if planting stocks are furnished.

Orders for 25 pounds of a single variety of vine seeds will be filled at regular quotations; for orders of less than 25 pounds of a single kind, add two cents per pound.

All contract prices are for prompt acceptance, and are subject to stenographic errors and omissions, fire and all other contingencies beyond our control.

TERMS—Field corn, cash on receipt and examination; sweet corn and vine seed, sixty days' acceptance, or if discounted, 1 per cent in thirty days from date of shipment. All prices are based on delivery f. o. b., Waterloo, Nebr., or Rocky Ford, Colo., our option.

AIR DRIED CORN

We expect to deliver as dry corn as the season affords and at prices named will dry all corn showing over 16 per cent moisture without additional charge, but these prices do not carry artificial drying of corn showing 16 per cent or under of moisture. Our drying plant has a capacity of 800 bushels per ten hours. This has proved a valuable addition to our equipment and will be used at our own expense in case of excessive moisture. Customers wanting their corn dried to 14 per cent moisture or under will be charged 10c per bushel.
